

Jefferson Elementary School

1. New School numbers 17.5 million to 27 million now 19.5 million 190.00 per square foot are we sure of cost now.
 - A. Playground Equipment 0 dollars funded from other sources what sources?
 - B. Geotechnical engineering 0 dollars
 - C. Additional Geotechnical engineering 0 dollars
 - D. Utilities Relocation 0 dollars no service charge?
 - E. Gas services 0 dollars no service charge?
 - F. Moving 0 dollars by JCBOE are they working for free no pay?
 - G. Furniture and Equipment 500,000 assumes some re used
 - H. Technology 350,000 assumes some re used
 - I. Where is all the money coming from for this free or reduced stuff?
2. Total remodel originally 8/9 million now 17.5 million but no detailed estimate like the new build this was to be presented also.
3. Federal Grant 6.2 million total 4 million for remodels reimbursement. None for new buildings Mrs. Potts informed me of this.
4. Remodel no new playground, little site prep 2.2 million new school. Demolition 85,000 new school. No moving cost.
5. We gave money to have a patch remodel, Complete Remodel and a new build. All the school board has given us are the numbers for the new build. I has asked repeatedly to Mrs. Potts and other members of the board for the detailed numbers for a complete remodel and still have not seen it.
6. Until we see the numbers for all 3 we do not need to meet discuss or vote on a new building, and before they accuse us of dragging or feet and place the blame on the County Commission it was made clear months ago to the school board what they needed to present to this body. I hope their refusal to present these numbers is not them refusing to work with us because they will only accept a new build.
7. I am not even going to discuss Patch remodel no way this will fix the issues at the school I have seen the conditions.
8. What to do with the kids the school can be remodeled in 4 section the 3 wings and the main building. We have done it before it is inconvenient but it worked. Or we can move freshman to the High School and use Patriot Academy until the remodels of our schools are finished. We are busing students to the high school from the academy for sports and classes so we save that money and take it off the cost of busing students to the Academy.
9. Why do you have the Day Care for the county on off days at this school if it is so dangerous?
